## 3,5CM TREEWEAR SET

**NOT TOO WIDE NOR NARROW**  
**DISCOVER A NEW SLACKLINE**  
**EXPERIENCE**

The BananaLama Slackline is THE ultimate allrounder because its width is right in the middle of the two most common slackline types – 1 and 2 inch. Therefore it combines the advantages of both and no matter if rookie or pro the 15 m slackline set guarantees fun and a great challenge. Already at your first steps you will feel the smooth dynamic properties of this special webbing. This 1½ inch wide slackline is super easy to walk but also nice for jumping and static moves. Including TreeWear – protects the trees, for more environmental sustainability and saves your slackline from damage!

## + FITNESS EDITION

**INNOVATIVE FITNESS FOR PROFESSIONAL USE  
AND HOME FITNESS**

The new SlackRack Fitness Edition comes with many advantages. As a three-part-stand-alone-solution the SlackRack Fitness can be set up at either 2 or 3 m length (compatible with the SlackRack Extension). The new design simplifies set-up and usage: only one type of screws, resistant powder-coating of all metal surfaces and exchangeable rubber stands that provide a safe grip on the floor making it ideal for indoor use.

To get started this product also includes some effective fitness tools such as a stretch band, two handgrips and a training plan in poster format with tons of exercise examples. The set is completed by the fitness function in the free GIBBON APP to create interactive, customized workout programs. Developed with sports scientists and physiotherapists, this full body resistance training-set will blow your mind.

# SLACKRACK CLASSIC

## STRONG AND RELIABLE

As a three-part-stand-alone-solution the SlackRack can be either set at 2 or 3 meter length. The new design simplifies setup and usage: only one type of screws, resistant powder-coating of all metal surfaces and exchangeable rubber stands that provide a safe grip on the floor making it ideal for indoor use.

# SLACKFRAME

## PATENTED DESIGN

The new GIBBON A-Frames from the Independence Kit allow a setup height of 30 cm, 50 cm and 70 cm. In combination with a ground screw the A-frames are the ideal solution when anchor points are missing on ground soil. The A-frame also allows to raise the height of the Slackline if the anchor points are too low.
